

**Jagan Lamps** was founded by late Mr. Jagan Nath Aggarwal who could foresee development and growth of automotive industry in late 90s and demand for advance lighting systems for upcoming new generation vehicles. He decided that his company will pioneer in producing high quality using latest technology and innovations in lighting.

Jagan Lamps accredited with **ISO 9001:2000, ISO/TS16949:2009** by **TUV Rheinland** introduced complete range of automotive halogen lamps such as H4, H7, H1, H3, H8, H9, H11, H13 and complete signalling range of lamps for passenger cars, commercial vehicles, 2&3 vehicles and for off road applications

Lamps produced by Jagan Lamps are **E1 homologated from KBA, Germany, DOT** complaint and also have **TAC certification** reflecting commitment towards product quality evidently ensuring superior performance and reliability delivering long life, high visibility and strain free driving.

Now after 20 years since inception Jagan Lamps with three state of art production facilities equipped with ultra modern fully automated production lines has become preferred one stop source for automotive lamps for OEM's, leading brands and markets around the world.

**Jagan Lamps** since inception has focused across verticals on domestic and export front and today caters to more than 44 countries across 5 continents including Europe, USA, Asia Pacific, Middle East, Latin America has an extensive distribution network both locally in India and across the Globe. We also produce halogen bulb for Fantex brand, Iran. In India, we have our Headquarter in Kundli, Haryana (Near to New Delhi). To provide best standard of service tie up with professional third party logistics companies has been put in place to ensure On Time Full deliveries.
